Aspiring Software Engineer with a keen interest in AI/ML, full-stack development, and cloud technologies. Proficient in C and Java, with solid skills in software development. Completed an AI-ML Virtual Internship with Google and Eduskills. Built projects such as a Food Ordering App using Java Spring Boot and Servlets, which reduced response time by 30%. This experience showcased my problem-solving abilities, adaptability, and teamwork skills.

EDUCATION

ACEG, ACE Engineering College

2023

B.Tech - Computer Science and Engineering - CGPA - 8.7

Ghatkesar, Telangana

LFJC, Little Flower Junior College

2021 – 2023

MPC - Intermediate - CGPA - 8.6

Uppal, Telangana

PVNHS, Pragati Vidyanikethan High School

2020 – 2021

10th - School - CGPA - 10.0

Amberpet, Telangana

EXPERIENCE

AI-ML Internship [↗](#)

July 2025 - September 2025

Role - AI-ML Intern

Virtual

- Learned **image classification** **object detection** and Gained TensorFlow model training experience.
- Enhanced development integration skills, by using Android Studio and Firebase Studio
- Gained **TensorFlow model** training experience, through guided practice labs, which strengthened my ML foundation.
- Developed ML models using TensorFlow, improving model training efficiency by 30%.

PROJECTS

Foodie Web App using Java Servlets [↗](#) | Java, Servlets, Apache Tomcat -Solo project

Jan 2025

- Built a web-based food ordering system to streamline menu browsing, orders, and admin tasks.
- Developed a **full-stack application** with secure login, dynamic menu, cart, and admin controls.
- Managed the Database and created a responsive front-end using **HTML, CSS and JavaScript**.
- Developed a **full-stack application** with secure login, dynamic menu, cart, and admin controls.

Digital Notice Board -flask [↗](#) | Flask, Python, PostgreSQL -Group project

Jan 2025

- Replaced slow Google Sheets/Form-based notices with a secure, centralized system for college notices
- Built a full-stack Flask app with admin authentication, file uploads, and category-based filtering.
- Streamlined campus communication, ensuring secure, scalable, and highly responsive notice distribution.
- Achieved 50 % faster page load and real-time notice updates, enhancing user experience.

TECHNICAL SKILLS

Languages: C, Java, JavaScript

Technologies/Frameworks: SpringBoot, Servlets, Apache Tomcat, Javascript, Flask, Bootstrap

Databases: MySQL

Developer Tools: Eclipse, VS Code, Canva, Apache Tomcat, Github

CERTIFICATIONS

- The Complete Full-Stack Web Development Bootcamp - Udemy
- AI Foundations Associate -Oracle Certified
- Python for Data Science- Udemy
